PRESS RELEASE

The Montreux Jazz Festival continues its digital development

- **New livestreaming partnership with Qello concerts by Stingray**
- **Launch of MJF Spotlight, digital brand dedicated to emerging artists**

The Montreux Jazz Festival announces a new livestreaming deal with Qello Concerts by Stingray, world leader in live concert streaming. The Festival is also launching MJF Spotlight, a new digital brand dedicated to promoting emerging talent throughout the year. With these two announcements, the Festival continues its transition towards a hybrid model combining live events and digital projects.

The Montreux Jazz Festival launches 2021 by strengthening its digital presence. The signing of a new livestreaming partnership and the launch of MJF Spotlight are in line with the numerous projects developed by the Festival last year. Despite the cancellation of its 2020 edition, the Festival continued to keep its lights on with several initiatives: the free online publication of 50 legendary concerts; the launch of "Silent Shores", a series of original artworks created by the historical poster designers; the creation of the digital festival "54th Summer of Music"; and the Autumn of Music event, organised by the Montreux Jazz Artists Foundation.

The Festival is thereby continuing its transition towards a hybrid model combining live events and an annualised digital presence. Accelerated by last year's Covid crisis, this strategy had already been initiated in 2019 with the creation of Montreux Media Ventures, the Festival's subsidiary dedicated to the creation of digital content.

The Festival is expected to announce details of its 55th edition in the coming weeks, as well as new partnerships and collaborations throughout 2021, in order to boost its sustainability.

Livestreaming deal with Qello Concerts by Stingray

Qello Concerts will livestream future editions of the festival as part of an ongoing multi-year agreement. Additionally, the streaming platform will be granted the license to high quality content produced by the Festival's subsidiary media company Montreux Media Ventures.

Qello Concerts by Stingray already has access to over 50 concerts from the Montreux Jazz Festival including iconic performances by Ray Charles, Wu-Tang Clan, Johnny Cash, Nina Simone, Marvin Gaye, Deep Purple, Carlos Santana and more.

Commenting on the livestream deal, Montreux Media Ventures CEO Nick Bonard said, "Our deal with Qello Concerts by Stingray to livestream the festival is a key part of our hybrid model, creating an always-on experience. Streaming is a crucial medium for securing the continued success of the festival: if people can't come to the Festival, we will bring it to them. This deal will enable us to adapt and respond more nimbly to the key challenges facing the sector while generating support for the true lifeblood of the Montreux Jazz Festival – bold, new talent – for many more years to come."

"We are thrilled to announce a partnership with Montreux Jazz Festival, one of the world's biggest and longest-running music events, to expand our content offerings with livestreaming," added Mathieu Péroquin, Vice-President, Marketing and Communication of Stingray. "We are always striving to offer the best concerts available for our music fans. Now, more than ever, audiences can access concerts from their favorite artists and continue to look to Qello Concerts for the top music entertainment they crave."

MJF Spotlight, a new digital brand dedicated to emerging talents

The Montreux Jazz Festival unveils MJF Spotlight, a new brand dedicated to promoting emerging talent throughout the year through digital content. In time, MJF Spotlight will also exist physically with a series of events in different places in Switzerland, including a special evening each summer at the Montreux Jazz Festival.

«The lack of concerts and festivals has a severe impact on the emergence of new artists. At Montreux Jazz Festival, hundreds of up-and-coming talent usually perform each summer on our various stages. With the launch of MJF Spotlight, we will now be able to promote new talent throughout the year on our digital channels, independently of the Festival line-up.» – **Mathieu Jatton, CEO Montreux Jazz Festival**

The MJF Spotlight project brings together the expertise of the Festival's booking team, the valuable work in support of the artists carried out by the Montreux Jazz Artists Foundation and the creation of digital content by Montreux Media Ventures.

MJF Spotlight will focus on three main areas:

1. MJF SPOTLIGHT ARTIST OF THE MONTH

Each month, an emerging talent will be highlighted on the Festival's platforms through original content. The Artists of the Month will participate in the MJF Spotlight Sessions, published in the form of live video sessions and live mini-albums on streaming platforms. Special emphasis will be placed on Swiss talent in this category.

2. MJF SPOTLIGHT PLAYLIST

Each month, the bookers will select 20 tracks reflecting the latest musical trends and their new discoveries. The Artist of the Month will be systematically included in this playlist.

3. MJF SPOTLIGHT - 20 ARTISTS TO WATCH IN 2021

At the beginning of each year, the Festival will present a list of 20 emerging artists to be followed closely throughout the year. The 2021 selection will be published on 2 February with, among others, Swiss R&B artist Priya Ragu, the mysterious London collective Sault, Latin sensation Nathy Peluso, indie rockers The Lathums and the disarming French singer Yseult.
